If someone tells you price equals performance, hand them the keys to this. The 449cc parallel twin with a 270° crank delivers 51 hp and plenty of torque where it matters—right in the heart of the rev range. The Brembo M40 caliper and oversized rotor gives you braking that borders on overkill. The suspension? Tuned for pavement with personality. Now you see why this machine blows past everything in its class. Check it out at our store today.
