

# Haunted Hotel...

The Omni Grove Park Hotel in Asheville, North Carolina, is said to be haunted by the ghost of a Victorian woman who once fell to her death there. Photo courtesy of Aleksandr Dyskin/Dreamstime.com.

A man seen peering out the window of the ornate six-story-high tower is believed to be Smith, lamenting the turn of events that caused him to lose his dream property.

In the late 1800s, Deadwood, South Dakota, was a lawless, rowdy town that attracted the likes of Wyatt Earp, Wild Bill Hickock and Seth Bullock, who served as the community's first sheriff. He built the hotel named for him and is believed to haunt it, showing up late at night. Items moving of their own accord and voices emanating from dark hallways add to the mood.

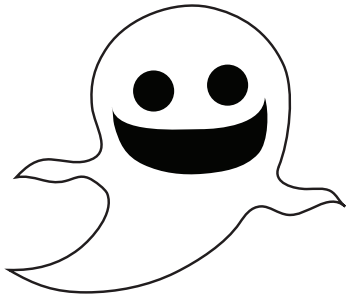

The 1886 Crescent Hotel & Spa in Eureka Springs, Arkansas, touts itself as "America's Most Haunted Hotel." The hands of a stone mason who plunged to his death from room 218 during construction have been seen emerging from a bathroom mirror, the door opens and closes on its own, and cries of a falling man emanate from the ceiling.

Whether you're a strong supporter or a suspicious skeptic, staying at a hotel known to be a ghost hangout can be a scintillating, and perhaps spooky, experience. What better time to do so than during the Halloween haunting season?
